

Fencing

Artistic fencing

Historical fencing shows

Fencing as a sport is the principal activity of Aqua Ferro Fencing.

Three days per week lessons are given in a convivial manner allowing a number

of our members to attain a high level in competitions. Fencing is composed of three disciplines; foil, épée and sabre.

The club lessons are essentially for learning and handling the sabre. All are welcome to the club, from toddler fencing (Age 4) to adults.

Artistic fencing is a modern sport reconstructing and applying fencing of a bygone age in contemporary artistic representations.

Our association provides the possibility to practice artistic fencing every Tuesday as well as beginners or perfection courses for duelling for representations of the Middle Ages and the renaissance period.

The Aqua Ferro troop concentrates on the authenticity of the representation of their fencing scenes, with research on the costumes, weapons, and the combat techniques... giving the closest representation of our ancestors' fencing.

*'To create the illusion
authenticity is key'*

Musketeer fencing, or 17th century duelling, medieval combats, shows and jokers, technical demonstrations, each year the Aqua Ferro Fencing troop prepares new fencing scenes. These scenes will take you to the heart of the burlesque tales of old, where humour, duelling and dialogue create an unforgettable atmosphere.

Aqua Ferro Fencing night time shows with torches, torched sabres, diabolos and fire balls, Spanish dancing flames and juggling fire sticks. The night time shows and pyrotechnics are performed solo, in duos and trios accompanied by music and circus acts.

escrime et spectacle

Aqua Ferro Fencing club was founded in the year 2000 by Master of Arms, Antonio Meffe. The club has the singularity that it is a centre of learning for fencing, especially sabre, and has a troop of artistic fencing who prepares historic duelling demonstrations.

The club is particularly appreciated for its openness; as well as weekly training sessions for the members of the troop, it proposes open door workshops for beginners as well as for experienced fencers. Also the combat scenes

form a large part of specialised theatre techniques, juggling, acrobatics and fire handling techniques. The club integrates people from all walks of life and generations.
